

Dear Partners**Introducing Natural Rushmore Ruby Stone – 3200 Gram****The only natural ruby sculpture in the world – now offered exclusively by Oriental Gold & Gemstones Trading LLC**

Oriental Gold & Gemstones Trading LLC, a Dubai-based luxury gold & gemstone company, is proud to present to collectors, investors and museum institutions worldwide a rare mineralogical-artistic specimen: “Rushmore Ruby” – a 3.2 kg (~16,000 carat) natural carved ruby, officially certified by GIA (Gemological Institute of America) with the code number 2235620368.

Unique work – dual origin: geology and art

The “Rushmore Ruby” is not only a giant block of natural corundum – it is also the world's only ruby sculpture modeled after Mount Rushmore, an American cultural icon.

The stone possesses a rare natural color combination: purple - white - black, formed from a metamorphic geological background rich in ruby-hornblende, created under tectonic pressure for hundreds of millions of years. The veins, layers of color and minerals inside are unique, cannot be copied, even when carving the same shape.

GIA Certified – World Class

GIA certified the stone as **natural**, untreated, unsynthetic, unadulterated corundum—a rigorous standard achieved by less than **0.0001%** of all recorded ruby specimens.

Suitable for museums, international auctions, or private collections

The Rushmore Ruby is a perfect blend of mineralogy, sculpture and cultural iconography. It is a specimen that is considered suitable to appear in international auctions (Sotheby's, Christie's), to be displayed in natural/national museums, or to become the main gem in the private collection of high-end investors.
